SILENT SERVICE

SCREEN SHOTS MAY VARY

Captain your own World War II submarine in the treacherous South Pacific.

Silent Service is a highly accurate simulation of actual combat missions

Your submarine features all the critical battle stations – the engine room, conning tower and ship's bridge – and has a sophisticated attack plotting system.

As captain, you'll not only face the threat of single ships, but heavily escorted convoys.

The action is heart pounding; the pressures are intense.

Will you select a quiet patrol sector in the Marianas Islands or choose the dangerous waters off the coast of Japan?

Is it better to make a submerged periscope attack or a surface attack at night?

Actions and decisions are constantly required as you find, attack and sink the enemy's shipping.

There are four skill levels and various 'reality levels' so you can customize complexity. Get ready to take the helm.
